News and Notices from the Local Council

Meeting of the Temmels Local Council on 12 November 2025

All information on council meetings can be found at <https://www.konz.sitzung-online.de/public/si018?GRLFDNR=9>.

Item 1 – Question time for residents

A resident welcomed the large new TV screen, which improves the visualisation of plans and drawings during public council sessions.

A question was raised about the reconstruction of the damaged roundabout. The mayor reported that discussions with the liable party's insurer are ongoing.

Item 2: Firewood Prices for the 2025/2026 Season

The council followed the recommendation of the Saarburg Forestry Office and unanimously decided to leave firewood prices unchanged.

The maximum quantity per household remains 10 cubic metres. In individual cases, larger quantities may be approved, subject to availability.

Item 3: Municipal Consent under §36 German Building Code

3.1: The application to convert a single-family house into two residential units was unanimously approved.

3.2–3.5: The applications to construct four two-storey residential buildings outside the building zone were unanimously rejected.

The mayor noted that the municipality will meet with the State Office for Mobility (LBM) to discuss possible access to the castle grounds via the B419. Temmels remains committed to finding a solution.

Item 4: Reports and Updates

Fire station: Planning preparations are underway. Design plans and cost estimates are expected in the first half of 2026. Construction is scheduled to start at the end of 2026 and take 1.5 to 2 years.

Senior home and municipal depot: These projects depend on the progress of the fire station. The investor remains highly interested.

Village square renewal: Two proposals by the Stadtgespräch planning office have been discussed. The SPD and WG Roost have expressed their preferences, which will now be forwarded for the final design.

New development zone “Auf dem Bieker”: The spatial planning assessment has been initiated. The collective municipality supports the project.

Fibre-optic rollout: Work is progressing quickly. Some defects were observed, especially in road restoration. The mayor and a member of the building committee are monitoring the work closely.

Residents praised the thoroughness of the oversight. After “Zur Fels”, Saarburger Str. is next; “Auf der Kirth” will follow in 2026, weather permitting.

Petition Saarburger Str.: The petition has gained strong support, with over 130 signatures and 50+ comments. Local media (TV, SWR) have shown interest. The petition can be accessed at www.temmels.de. The mayor will discuss the matter with the LBM.

Dear Fellow Citizens,

There are times in the year that feel like gentle in-between moments. The transition from autumn to Advent is one of them.

The trees stand as silent sentinels along our paths, and the air carries the crisp clarity that only late autumn knows.

In our homes and hearts, something new begins to take shape: a season of anticipation, hope, and light – the Advent season.

This quiet transition invites us to reflect and to look ahead.

I think of the countless hours given by volunteers, the commitment shown in our associations, the variety of cultural events, the many neighbourly acts of care – and of those who contribute quietly in the background, often without recognition.

A heartfelt thank-you to all of you!

Let’s continue to strengthen our community: by supporting each other, by listening, by appreciating, and by treating one another with respect – because only then does a place truly become home.

I wish you and your families a peaceful, light-filled pre-Advent season.

May it bring warmth during darkening days, calm in turbulent times, and a radiance that lingers well beyond this season.

With warm and heartfelt regards,

Your Mayor, Doris Köbernik
